

## **ENGINEERING: PROGER BUYS INDEXWAY FROM CRESPI**

### ***Presentation of the new PROGER Industrial Plan in Milan on Thursday 11 October***

*Rome, Friday 21 September 2018* - Proger S.p.A. today signed an agreement to purchase 35% - a relative majority stake - of Indexway SpA, a company belonging to the Crespi family. A leader among the Italian engineering companies, Proger works in over 20 countries worldwide, and is led by Umberto Sgambati and Marco Lombardi. In particular, the purchase includes the various entities that make up the "Indexway galaxy". That is: the "Leader Factory", the important training institution run by Luca Telese and Luigi Crespi; "Index Production", the film production company led by the award-winning director Ambrogio Crespi; "Index Research", the research institute headed by Natascia Turato, also confirmed this year by "Piazza Pulita" in La7; and "Digital Identity", the company led by Social Media Manager Helene Pacitto.

To consolidate this and other important operations that are part of the new corporate industrial plan, Proger SpA will hold - on Thursday 11 October in Milan - a press conference and presentation to the business community and the Italian and foreign press.
